# Beadalon®

PROFESSIONAL
DELUXE COILING GIZMO

PROFESSIONAL DELUXE COILING GIZMO
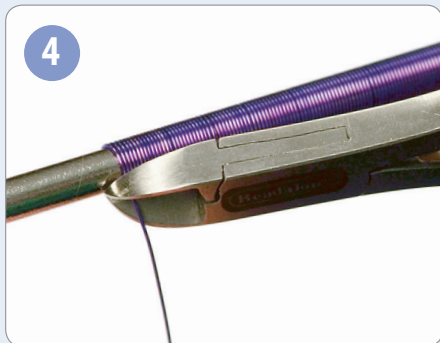

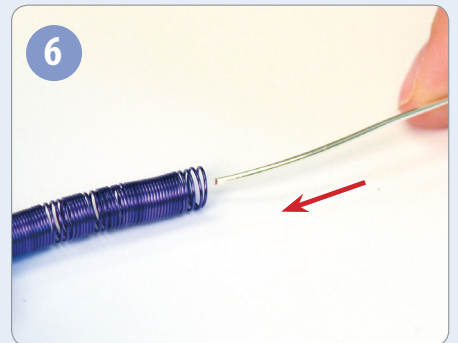

1 Insert Wire.

2 Turn Crank.

**3** Hold the wire with your fingers or a Ring/Wire Clamp.

4 Coil to desired length. Trim wire.

5 Remove Coil from Rod. Flush-cut the inside of the coil.
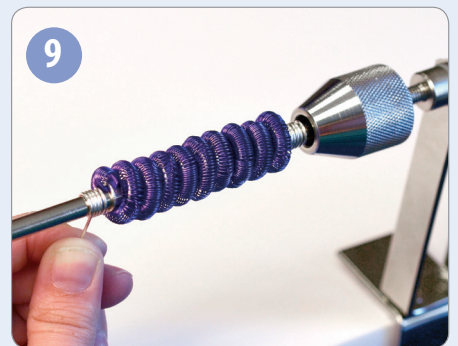

6 Insert another wire into the coil. Don't cut the wire until you have completed your second coiling to ensure you have enough wire.

7 Use a different diameter rod for this step.

8 Turn Crank.

9 Start and finish the bead with a few extra coils.
